I hereby respectfully announce that I am a candidate for the office of county attorney, subject to the decision of the Republican primaries and convention.

FOR COUNTY ATTORNEY.
I wish to announce to the Republicans of Allen county that I am a candidate for the office of county attorney, subject to their decision at the primaries and the county convention, and would respectfully solicit their support.

TEACHERS ARE SELECTED

City Board of Education Last Week Chose the Corps of Teachers for Next Year

The Board of Education met last week in special session to consider the matter of employing a corps of teachers for the ensuing year for the city schools. The matter has been under consideration for some time and the applicants were more numerous than usual, nearly all the old teachers applying for their same places and many new ones appearing. There were about eighteen, all well equipped for the work who had to be refused because of a lack of places, the preference being of course given to the old teachers.

The teachers selected are as follows: In the high school building no choice was made of principal; Miss Emma Hyde was re-elected assistant principal, and Miss Clara Klammann was also re-elected. Miss Sophia Bonies, formerly of this school who has spent the last year in the Emporia college, was elected and J. E. Henderson, also an old teacher was hired. The application of L. R. Lewis for position of musical director, at \$75 per month full time, was discussed and action deferred.

The grade teachers for the East Building were chosen as follows: Estella Nelson, 4th A and 3rd B; Bertha Forster 3rd B and Second Grade; Clara Harris 1st A, B, and C. Additional teachers were selected to take the new classes which will certainly have to be formed next year: Mrs. Maude Funston, Della Irving, Mary Hornay, Belle Ricketts, all Iola ladies, experienced and efficient.

For the South Building, selection was made as follows: L. H. Wishard principal; Maude Minrow 7th grade; Alice Hendricks 6th grade; Louise Fuesman 6th B and 5th A; Blanche Stone 6th B and 4th A; Kate Ausherman 4th B and 3rd A; Gertrude Barton 3rd B; and second A; Second Grade; Carrie Millard 1st A and 1st B; Grace Hostwick First Grade.

For the North Building: George Freeman principal; Lucy Woodin 6th grade; Hallie Irving 5th; Sadie Post 4th; Mildred Swigart 3rd; Minnie Crook 2nd; Austie Bonnell 1st A and 1st B; Adda Adams, First grade.

Miss Clifford Mitchell was elected before for superintendent of all the schools. There were three resignations, Prof. Mineley, principal, Miss Ruth Brown and Miss Alta Thompson, both of the south building. Miss Brown is one of the popular teachers of the city and has taught continuously here for ten years or more. She will give up teaching for a time at least and probably permanently.

Applications to the number of forty or more have been received from half the States in the union, beginning in Connecticut and including all the western States, for the job of principal and the board feels no uneasiness about getting a good principal for the high school. In fact they are rather embarrassed by the quantity of good material to be selected from.

The REGISTER believes that the selections will meet the hearty approval of the patrons of the schools. All are experienced teachers, many of them have grown up in Iola and been educated here, and the entire corps is good looking, brainy and efficient. Amen.

"Honest Labor Bears a Lovely Face."

There is nothing more pleasing to look upon than a hearty, ruddy face, gained by honest toil. They are the saving of the nation, these toilers of both sexes, struggling for daily bread.

Pure blood makes them able to keep up the daily round of duty at home, shop or store. If the blood has a taint or impurity, or a run down feeling comes on, the one remedy is Hood's Sarsaparilla. America's Greatest Medicine for the blood.

Poor Blood—"My blood was so poor that in hottest weather I felt cold. Hood's Sarsaparilla made me warm. It is the right thing in the right place." Hattie J. Taylor, Woodstown, N. J.

Hood's Sarsaparilla
Never disappoints

Hood's Pills cure liver bile, rheumatism and only reliable in take with Hood's Sarsaparilla.

HE WILL SUE THE CITY

Humboldt Man Will Claim Damages for a Fall on a Walk Which he Says Broke his Wrist

The slow but certain wheels of the law have been set in motion by Alexander F. Hinz, who lives near Humboldt, to secure from the city of Iola damages for injuries which he says he sustained by a fall on the sidewalk in this city some two weeks ago. Mr. Hinz was here visiting his son, Otto Hinz, who works at Sauer & Steyer's meat market. They were walking in the evening on south Jefferson avenue and when they were on the part of the walk leading from the corner of the school yard fence to the street north, Otto stepped on a loose board. The other end naturally flew up and Mr. Hinz, sr., stumbled over it and fell. He put out his hand to break his fall and the weight on the hand resulted in a broken wrist.

This much is known so far about the claim that will be set up, but the city attorney has not yet been approached on the subject. Mr. W. A. Chogoull, of Humboldt, has been retained as counsel by Mr. Hinz and he will bring suit for damages. The amount is not yet known but it will probably be something less than \$2,000 and probably well up in the hundreds for it is a general rule in such cases always to be sure and ask enough, so that even when the feeling of the claim has all been done there will be a respectable balance left.

The warning in the case is that people should take the trouble to drive a nail where one is needed in their walk, as the city may sometime have to pay a pretty penny for a loose board.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Electric Bitters has cured Mrs. Brower of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face and the best doctors could give no help; but now her health is excellent." Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cts. Sold by Evans Bros. Drugstore.

Appointed Mining Engineer.

A new office has been established by the Santa Fe. It is that of mining engineer.

Mr. Wm. C. Potter has been appointed to fill the place. The appointment was made by Mr. J. A. Davis, Industrial commissioner, whose headquarters are in Chicago.

It is the intention of the road to develop the mining property along the road. The duties of Mr. Potter will be to assist the prospectors in their work. This appointment is an important one from the fact that heretofore nothing of this kind has been done by the Santa Fe.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia. writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must die soon. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Evans Bros. Drug Store.

Industry, a small town in Dickinson county, claims attention this week with a little girl's death from swallowing a match, and a boy's poisoning from eating corrosive tablets which he found in his father's pockets and took for candy. Bad children will justify their laziness by citing these misfortunes of industrious children.

A fatal policy is to neglect a backache or other signs of kidney trouble. FOLEY'S KIDNEY CURE is a sure remedy for Bright's disease, diabetes, and gravel.

Among the Lodges.

Kansas is full of lodges and the members of the orders are always busy doing things, making life pleasant for themselves and others. Among the items of interest to the various orders recently noted are the following:

The Kansas grand lodge, A. O. U. W., has won the prize of \$2,000 offered by the supreme lodge of the order to the grand lodge making a gain of 25 per cent in its membership in one year. Grand Masterworkman Crider, in an interview says that the gain has been accomplished, over 900 members having been added since May 1.

The Newton Kansan tells the story of an old man who was a Woodman boarding a train and noticing the axe and hammer in the case in the car, placed there as every one knows for use in case of an accident. The old man was sure it was the lodge sign and after giving one passenger the grip, the hailing sign and several other tests and getting no response asked if the man was not a Woodman. He was not.

The farmer looked out of the window a long time, and appeared to be studying about something. After a while he returned to the salesman again. "The conductor don't own this yere road?" he asked.

"No," said the other, "Tell you what, bresh!" said the farmer, "the man that owns this road's a Woodman. I know him—he's got the sign on there, and if he's on the train I'd like to meet him."

A western Kansas lodge man has suggested that a good plan to insure a good attendance at meeting would be to use the ballot box for every member present, all the balls being white but one. Each member present draws a ball and the one getting the only black ball has his monthly dues paid by the lodge.

The Hutchinson News says: A big event in lodge circles is to take place in Hutchinson two weeks from next Tuesday night on June 7. It will be a public drill by all the lodge teams in the city. Each lodge is requested to participate, and if they are all there there will be eleven drill teams. The drills will probably be held in the Auditorium, but if not they will be given at the Workman hall. The idea of a public drill by all of the lodge teams of the town will be especially attractive to the lodge people of the city. The drills will also be of interest to the public generally. The exhibition drills will be free to everybody and the general public will be invited.

St. Scott Monitor:—F. C. Lyons, traveling passenger agent for the Missouri Pacific, was in the city yesterday in the interest of his road and also to interest the lodge of Elks in an excursion which will be run to Atlantic City, N. J., in July. An excursion will be run from Joplin and several other near by points and it is thought that a good crowd will go from here if reasonable rates can be arranged for. The Missouri Pacific promises the lowest rates that can be offered and if a party is made up in St. Scott they will probably go via that route.

For two years Ira W. Kelley of Mansfield, Pa., was in poor health on account of kidney trouble. He consulted several physicians and spent considerable money for medicines without obtaining relief until he tried FOLEY'S KIDNEY CURE, and now writes: "I desire to add my testimony that it may be the cause of ailing others."

Neodesha Smells a Smelter.

The following is from the Neodesha Sun:

"M. Phillipson, of New York, Joseph A. Corby, of St. Joseph and O. M. Odell, of Joplin, arrived in Neodesha today via the Frisco to look over the Neodesha gas fields. Mr. Phillipson and Mr. Corby are representing large smelter companies and Mr. Odell is traveling solicitor for the Missouri Pacific railroad. T. J. Franks of Wichita arrived last night and is with the party as representative of the Frisco. They all put up at the Houston and are being entertained by Mayor G. W. Black, A. L. Hill, J. K. Demore, Dr. Allen, Dr. Blakeslee and others. They will, before returning home, get a thorough knowledge of the gas fields here with a view to putting in smelters."

Mr. Phillipson is the gentleman for whom a committee of producers is out getting pledges of ore on the seven for one basis, which is an eminently fair ratio.

The Memorial Services.

In the park Sunday morning the gray haired veterans of the great civil war of the sixties and the young soldiers of the Spanish-American war gathered together for the first time to listen to the inspiring words of the Scriptures and the comments by Rev. D. B. Shuey concerning the comrades who have gone before. The service was short, and the speaker, an old soldier himself, spoke feelingly and to the point. In the evening Rev. Doty, of the Baptist church, preached a sermon whose text was also of the time when an eternal truce should have been declared over the strife of men.

It was the first time that the young soldiers have participated in the memorial services of the G. A. R., but as time passes and the line of the old veterans becomes yearly smaller and thinner, to the young hands will fall the patriotic duty of decorating the graves, firing the salute and paying the tribute to the dead.

THE LIGHT THAT FAILED

The Sky was Clear from Mexico to Maine

And Hence the Total Eclipse of the Sun was

SATISFACTORILY OBSERVED

By Scientists all Along the Line. It is

Hoped Many Disputed Questions Will be Settled by the New Observations

By Scripps-Melroe Press Association.
Norfolk, Va., May 28.—The total eclipse of the sun occurred at 8:02. All was dark for more than a minute. The planet Mercury was plainly visible.

The totality came with a suddenness which made the spectators jump and some women shriek. The negroes were panic stricken as they thought the end of the world was coming.

The observations of the scientists were satisfactory in every particular.

LASTED A MINUTE AT ORLEANS.
New Orleans, May 28.—The total darkness here caused by the eclipse, lasted about one minute.

IT MADE NEW YORK GLOOMY.

New York, May 28.—The eclipse here was not total. At 9 o'clock when it reached its height the city became dark and gloomy and lights were necessary in office buildings.

IT WAS ALL RIGHT IN TEXAS.

San Antonio, May 28.—The eclipse was perfect with weather conditions magnificent. A very small crescent was left at the top of the sun.

SUCCESSFUL OBSERVATIONS IN GEORGIA.

Washington, May 28.—The eclipse was viewed here with gratifying success. Several sketches were made of the corona and six photographs were taken. The success of the observations here were wired to London, England, in one minute.

Mrs. E. W. Early, Marion, Ind., who has been ill for years, writes, "I was tired, could not sleep or eat and was rapidly going into decline. Doctor called it blood disorder, but could not cure me. I am now in perfect health and give all the credit to Beggs' Blood Purifier." Sold by all druggists.

Don't Miss Being Counted.

This month the census of the United States will be taken and as a matter of local and state pride each person should see to it that he or she is not omitted from this count. In the case of persons who will be absent from home at the time the census is taken, the following provision has been made:

In all cases of contemplated absence the head of the family is requested by the census office to communicate with the supervisor of the district in which he lives. He is also requested to leave information regarding his answers to the questions to be asked with some responsible neighbor who will agree to see that it reaches the enumerator on his rounds. Such information might better be left as a memorandum in writing, as in that case it is less likely to be overlooked. The questions to which answers are desired apply primarily to the populations, but also to all farms and manufacturing establishments. They are being published from time to time in the press of the country. By taking this trouble the absent citizen will do justice to his locality and his state, and materially aid the census office in the performance of its duties.

Last spring E. J. Evans, Cairo, Ill., was so run down in health had to give up work. Was also troubled with boils and eczema. He writes: "Doctors did me no good but before I had finished one bottle of Beggs' Blood Purifier, I began to improve and am now a well man." Sold by all druggists.

Cancer on Her Tongue Cured Without Pain.

Leavenworth, Kansas.

STATE OF KANSAS, ss.

Leavenworth Co., ss.

Janey Purvis, being duly sworn according to law, deposes and says that she had a cancer on her tongue and was treated August 25, 1898, by Dr. J. C. McLaughlin, of Kansas City, Kans., with his painless remedy for cancer and tumors; that in about one month her tongue was well, and is sound and well today. There was no pain from the application of the medicine, as she could read during the severest treatment.

When You Buy, Buy a KLONDIKE

In introducing our incubator and brooder to the readers of the Register, we make the claim of improvement over all other incubators in the important points—radiation, ventilation and moisture—using a combined system that more nearly reproduces the condition under the hen than other systems, both in sitting and brooding. The artificial hatching and brooding of chicks has every advantage over the old way (when using the Klondike). You suit your pleasure as to way; you are guided by the hen's pleasure in the other. In our ver catalogue we tell you all about it.
